## CERTIFICATES

**JUNIOR FULLSTACK WEB DEVELOPER**
*Fulltime coding bootcamp, working on real projects using Ruby on Rails, HTML, CSS3, JavaScript & Github*

## PROFILE

Recently graduated from @LeWagon Web development Bootcamp, where I've learned to work with HTML, CSS, JavaScript, SQL, GitHub, Figma and Bootstrap. I also developed with my team two projects using Ruby on Rails.

After 10 years as an early education and kindergarten teacher, I wanted to take my career to a new level and decided to seek a new challenge. I discovered in coding a new passion where can use my creative skills and solution-oriented abilities to create interesting and dynamic web applications.
